

Environmental Policy

Derlite recognizes the importance of environmental protection and complies with all environmental regulations, legislation and other requirements relating to the processes and activities of the company. Derlite will at all times co-operate with, and maintain good relations with all regulatory authorities and bodies.

It is the declared policy of Derlite to carry out all measures reasonably practicable to minimize negative impacts on the environment.

The principal aims shall be:

- 1) To assess the environmental effects of the company's design, production and service activities.
- 2) Reduce the amount of waste produced.
- 3) Limit, and where possible, prevent the production of pollutants to water, land and air.
- 4) Reduce the unnecessary consumption of raw materials, water and fuels.
- 5) Increase the use of recyclable and renewable materials.
- 6) Minimize any risk to employees, and the public, from company processes and activities.

Derlite shall foster environmental awareness and understanding in all employees, suppliers, customers and sub-contactors. Where practicable, the company shall provide assistance and information to customers on environmental issues, arising from the use of its products and services.
